Comments: July 6, 2014 Arizona Corporation Commission (ACC) Docket Control Center 1200 West Washington Street Phoenix, Arizona 85007 Re: Docket # RU-00000A-14-0014

Dear Commissioners, Thank you for sending the proposed "draft rules relating to the handling of private consumer information." However, I respectfully submit that this is superfluously off the mark. A misguided effort in an attempt to gloss over the prior misguided efforts that you continue failing to address. That being the woefully misstated, misrepresented, incomplete information you are still allowing for the deception of the People. The boasting of benefits that do not exist. Omitting the whole truth and the economic disaster to be sprung upon the ratepayers down the road. In NO way can a systematic fraudulent set of actions be dressed up to make it less fraudulent. The underhanded, ill conceived, FORCED, deployment of so called "smart" meters is the ONLY issue on the table here. Until this core issue be addressed front and center, all else is but adding to the mounting

fraud the Commission is both allowing and participating in. This is way too important not to have your full undivided attention. You know that this be so! I, as I'm certain you are, am aware of the depth and magnitude of what's at stake. No small matter at all - with far reaching consequences. Each day this gets delayed increases the suffering and clean up costs at a staggering exponential rate. It's a good thing to admit one's mistakes. Only then can they be rectified. The Commission allowed this mess to occur, now the Commission must disallow it. I wish you Godspeed, and great courage, in meeting this head on. Respectfully, Stan Kingman
